Allowable Subject Matter

1. Claims 1-18, 26-28 are allowed.

The following is an examiner's statement of reasons for allowance:

The reason for allowance of claims 1-17 has been stated in the previous office action (paper no.6). Regarding claim 18, the applicants have presented a persuasive argument that the cited prior art of record fails to disclose a method of processing a wafer prior to device formation thereon comprises, in order, the step of processing a peripheral edge of a wafer, the processing comprising defining an edge profile of the wafer and polishing the peripheral edge after the step of grinding the first and second surfaces of the wafer. In the contrary, the closest cited prior art of Vandamme et al (US 6,114,245) discloses a method of processing a wafer comprises the step of edge profiling of the wafer/processing the peripheral edge in prior to the step of grinding the first and second surfaces of the wafer (fig. 1)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
